

**DuraVision™ Convex Mirror Product Sheet:**

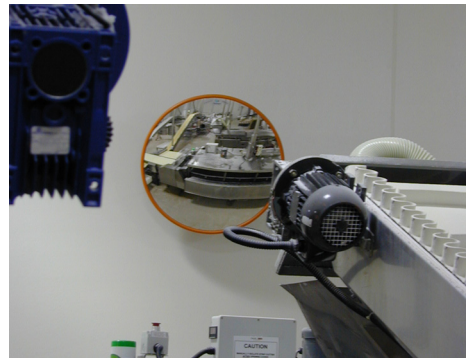

**Situation Images:**

▶ Food Hygiene Safety

▶ Monitor Machinery

▶ Prevent Blockages and Jams

**F-Series Stainless Steel Food Mirror**

Where hygiene and durability are crucial the DuraVision™ F Series offers you the ideal process monitoring solution. This mirror is made entirely of Stainless Steel, and will withstand the harshest environmental conditions and cleaning regimes. Ideal for viewing into hoppers, vats, mixers and other production line equipment.

**Features**

- Mirror quality stainless steel mirror face
- Stainless steel back
- Stainless steel bracket hardware and mounting plate
- Orange vinyl extrusion for visibility in the factory setting
- Unique J-Bracket for easy installation and adjustment
- 304 grade stainless steel can be hygienically cleaned

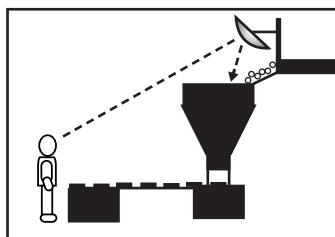

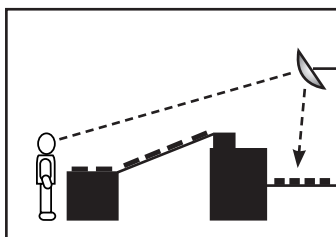

**Suitable Uses**

- Hygiene and Safety Environments
- Monitoring processes and machinery
- Harsh environmental and cleaning regimes
- Strict Food Hygiene Standards
- Prevent blockages and jams on a production line
